Kidston Pumped Storage Hydro project

This report details my evaluation of the Kidston Pumped Storage Hydro project (the project). It has been prepared pursuant to section 34L of the State Development and Public Works Organisation Act 1971

Kidston Pumped Hydro Energy Storage

The project will be located at the old Kidston Gold Mine, around 275km north-west of Townsville. This will be the first PHES deployment project in over 35 years in Australia and the first

Milestone reached at Kidston Pumped Storage Project: Spiral case

We celebrate this installation milestone and look forward to further progress and success as the project nears completion. In 2021, ANDRITZ also signed a long-term operations and

250MW Kidston Pumped Storage Hydro Project Procurement Portal

The project is D& C and will run over 3+ years so packages will come to market over a period of time. Packages will be awarded both on price / non price factors. Click here for current
