Longyuan power generation co ltd 50-mw-windkraft

Longyuan Power Completes World-leading Electricity Forecast System

On February 11, China Electricity Council completed the authentication of the research project on the studies and application of new energy power forecast system for new-type power networks, which

Longyuan Power Hainan 500MW offshore wind power project

[Longyuan Power Hainan 500MW offshore wind power project approved]On November 6, 2022, the 500MW offshore wind power project of Longyuan Power Hainan Company of the National Energy

CHN Energy Longyuan Power Reports Solid Mid-2025 Results

On August 20, CHN Energy Longyuan Power released its interim results. As of June 30, 2025, the company's controlled installed capacity reached 43.20 GW, all from renewable sources, including

Longyuan Power Holds 2023 Annual Performance Briefing and ESG

Furthermore, Longyuan Power actively participated in carbon market construction, deeply involved in the compilation of methodologies for distributed renewable energy

generation and offshore wind power

CHN Energy Longyuan Power Reports Solid Mid-2025 Results

In the first half, renewable power generation reached 39.65 billion kWh, up 12.73% year-on-year. The company secured 4.75 GW of new development quota, comprising 2.98 GW of wind

Longyuan Power's 10 MW New Energy Key Projects Launched

On September 7, China Longyuan Power Group under China Energy held the kick-off meeting for the first 10 MW new energy construction labor competition during the 14th Five-Year Plan Period and the

China Longyuan Power Group Corporation Limited

It possesses wind power, photovoltaic, biomass, tidal,geothermal and coal power generation projects, which has established eleven industry-leading technical support systems, including new energy

Gansu Longyuan Wind Power Generation Co., Ltd.

Explore Gansu Longyuan Wind Power Generation Co., Ltd.'s latest carbon emissions profile, Scope 1, 2, and 3 data, sustainability targets, and how they compare to industry peers using the DitchCarbon

China Longyuan Power Group Corporation Limited

The review of wind farms includes wind resource assessment, power generation, availability, and operational and maintenance arrangements, wind turbine technologies, and grid connection

CHINA LONGYUAN POWER GROUP CORPORATION LIMITED

s China's wind power industry for a long time. Guided by the energy strategy of four revolutions and one cooperation as well as under the strong leadership of the Party Committee of China Energy Group

Longyuan Power's 50 MW Wind Power Project in Guizhou Approved

The 50 MW wind power project at Yaozhan Wind Farm Phase II in Weining County, Guizhou Province, operated by Guizhou Branch of Longyuan Power under China Energy, was approved on February 24.

Longyuan Power Shanxi Longyuan New Energy Co., Ltd. Shenchi

The tender was published by China Energy on 30 Nov 2022 for Longyuan Power Shanxi Longyuan New Energy Co., Ltd. Shenchi 50MW Wind Power Expansion Project Road and Fan Foundation

China Longyuan bags all funds for 244 MW of S Africa wind projects

March 10 (SeeNews) - Power producer China Longyuan Power Group Corp Ltd (HKG:0916) has secured project financing for 244 MW of wind parks in South Africa and is ready to kick off construction.

Longyuan Power Advances Rural Revitalization through New Energy

In Putian, Fujian Province, Longyuan Power launched the world's first wind-fishery integrated floating offshore platform Guoneng Sharing. The project is expected to generate 16 million kilowatt-hours of

Longyuan Power's 50 MW Wind Power Project in Guizhou Approved

With a planned installed capacity of 50 MW, it will consist of 10 wind turbines, each with an installed capacity of 5 MW. It has been listed among Guizhou's major engineering projects in 2022.

Wind Power Generation

It is the world's first offshore wind power self-elevating construction platform, integrating large wind power equipment piling, lifting, installation and other functions and providing a "key weapon" for the

Longyuan Power Completes Jiangsu's First Batch of Offshore

Tests showed the download speed of the network reached 400Mpbs. This marked a remarkable breakthrough in the construction of offshore 5G network in Jiangsu. Workers install

Longyuan wind power single unit power generation

Dafeng Offshore Wind Farm Longyuan is a 200MW offshore wind power project. The project is located in East China Sea, Jiangsu, China. The project consists of 80 units of GW 2.5/109 turbines, each

Longyuan Power - Jingle Wind Farm Phase II 50 MW - Shanxi

This report is your guide to identifying lucrative opportunities within the Longyuan Power - Jingle Wind Farm Phase II 50 MW - Shanxi project, showcasing your offerings, and boosting your

Longyuan Power's Alxa Wind/Solar-to-Hydrogen Project Approved

On January 3, the 600MW wind-solar integrated hydrogen and ammonia infrastructure low-carbon industrial park demonstration project launched by the Inner Mongolia branch of China Longyuan
